Job Title: Web Developer Intern

Location: BKC, Mumbai

Duration: 3 Months

Job Description:

We are seeking a skilled Web Developer responsible for both back-end and front-end development, including creating WordPress themes and plugins. This position requires a combination of programming skills (namely PHP, HTML5, CSS3, and JavaScript). The ideal candidate will have a strong understanding of industry trends and content management systems. Experience with responsive and adaptive design is strongly preferred. Also, an understanding of the entire web development process, including design, development, and deployment, is preferred.

Responsibilities:

- Design and implement new features and functionality.

- Establish and guide the website's architecture.

- Ensure high-performance and availability and manage all technical aspects of the CMS.

- Help formulate an effective, responsive design and turn it into a working theme and plugin.

- Collaborate with team members and stakeholders to discuss project requirements and progress.

- Maintain well-documented, reusable, and transferable code.

- Troubleshoot and resolve website problems for clients and co-workers.

- Stay up to date on emerging technologies/industry trends and apply them to operations and activities.

- Assist in the maintenance, expansion, and scaling of our site.

- Ensure the site is properly optimized for SEO.

- Integrate data from various back-end services and databases.

- Conduct website performance tests.

- Monitor the performance of the live website.

- Manage all technical aspects of the CMS.

Requirements:

- Proven work experience as a WordPress Developer.

- Strong understanding of PHP back-end development.

- Good understanding of front-end technologies, including HTML5, CSS3, JavaScript, jQuery.

- Experience building user interfaces for websites and/or web applications.

- Experience designing and developing responsive design websites.

- Comfortable working with debugging tools like Firebug, Chrome inspector, etc.

- Ability to understand CSS changes and their ramifications to ensure consistent style across platforms and browsers.

- Ability to convert comprehensive layout and wireframes into working HTML pages.

- Knowledge of how to interact with RESTful APIs and formats (JSON, XML).

- Proficient understanding of code versioning tools (such as Git, SVN, and Mercurial).

- Strong understanding of PHP back-end development.

- Familiarity with MySQL databases and SQL.

- Excellent problem-solving skills and attention to detail.

- Good communication skills and ability to work in a team environment.

- Hands on experience on WordPress and plugins like Elementor

Preferred Qualifications:

- Bachelor's degree in computer science, Engineering, or a related field.

- Experience with eCommerce platforms (such as WooCommerce).

- Knowledge of SEO best practices.

- Familiarity with WordPress Multisite.

- Understanding of website performance optimization.

- Experience with web hosting platforms and DNS management.
